Kathy from Know Pathology - Know Healthcare campaign taking blood for diabetes test. Fear of such much worse than the pain.

Emma Husar MP  
Yesterday at 02:15 · 🌐

Today in Parliament I met with visiting pathologists to talk about the importance of preventative health care and the proper funding of pathology tests.

While I was there I took the opportunity to take a HbA1c blood test which can predict whether or not you are prone to diabetes.

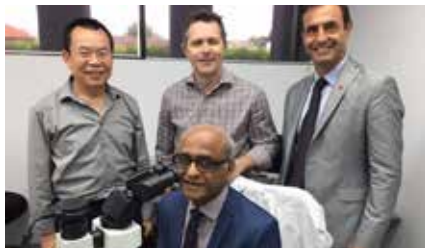

I encourage everyone in Lindsay to visit your doctor and ask them about preventative pathology tests to keep you and your family safe and healthy.

Kathy Burdett and Rowan Ramsey MP
